About Us

Vikas College of Pharmaceutical Sciences is located at Rayanigudem, Suryapet district, rural South Telangana. The institution was started in 2004 -05 by VC Educational Society, Secunderabad to impart quality pharmacy education to the students from rural areas and equip them with the necessary competencies to meet the growing global demand in Pharmaceutical industry, academia, research, and in patient care areas.

The college is approved by All India Council for Technical Education (AICTE), Pharmacy Council of India, New Delhi and affiliated to Jawaharlal Nehru Technological University (JNTU), Hyderabad.

The institution offers Bachelors degree in Pharmacy (B.Pharm) followed by Master's degree in Pharmacy (M.Pharm) and Pharm. D (Doctor of Pharmacy) Programme (Six years integrated course) Post Baccalaureate (P.B).

About Pharmaceutics

The department of Pharmaceutics was established in the year 2008 with an intake of 10 in Master of Pharmacy. This intake is increased to 15 by A.Y 2010-11. The Pharmaceutics department is committed to delivering quality of education for all around development of students to meet the changing requirements of industry and country.

Programme Objectives

Advances in Pharmaceutical drug delivery technologies enhance drug absorption, efficacy, and patient experience. When combined with appropriate targeting moieties, drug-coated nanoparticles, drug-encapsulating liposome's and nanotubes, and tree-like den drivers enable organ and tissue targeting. This program was designed to improve the knowledge on the area of novel drug delivery systems and technology.

1. Principle & approaches for development of various advanced drug delivery systems.
2. Criteria for selection of drugs and polymers for the development of novel drug delivery systems, their formulation and evaluation.
3. Various new technology used in Pharmaceutical industries.

About Department

The department of Pharmacology was established in the year 2021 with an intake of 10 in Master of Pharmacy. This intake is increased to 15 by A.Y 2021-22. The Pharmacology department is committed to delivering quality of education for all around development of students to meet the changing requirements of pharmaceutical industry and country.

Programme Objectives

Community pharmacists and their teams are a vital healthcare provider during the outbreak; they remain on the frontline of public health by serving as direct points of access for their patients.

◆ Hospital pharmacists have an important role during the outbreak in infection control as well as patient care and support. The International Pharmaceutical Federation (FIP) has issued a pack of 10 summaries for guidance on COVID-19. American Pharmacist Association (APHA) has also issued guidelines and resource documents for the strengthening and preparedness of the community pharmacies as front line health care workers in the global health crisis.

◆ As a healthcare provider, Pharmacist should conduct Antiviral stewardship program to ensure safety use the drugs and to optimize the patients related outcomes.

The department of Pharmacy Practice was established in the year 2021 with an intake of 10 in Master of Pharmacy. The Pharmacy Practice department is committed to delivering quality of education for all around development of students to meet the changing requirements of pharmaceutical industry and country.

Programme Objectives

➤The main aim of the NPW 2019 "Pharmacist: Your Medication Counselor" is to create awareness about the pharmacist role as a medication counselor. The campaign intends to inform pharmacy customers and patients about the importance of gathering all the relevant information before initiating a new treatment with a medicine.

➤To spread awareness about appropriate use of medicines among the public and to sensitize them to ask medicine related questions to the pharmacist and promote pharmacy practice services as well. To create awareness and educate the public, other healthcare providers and the authorities, on the role of pharmacist in pharmaceutical care (counseling about the disease condition medications, increasing medication adherence, patient counseling and improving therapeutic outcomes).

➤To create awareness amongst the public, other healthcare providers and the authorities, about the NPW theme in specific and about the pharmacy profession and role of the pharmacist. To raise public awareness about the medication errors and the need for regular preventive health care visits.

DR. Manjira Ghart,

Chairperson Community

Pharmacy Division, Indian Pharmacy Association

Member

About Us

Vikas College of Pharmaceutical Sciences is located at Rayanigudem, Suryapet district, rural South Telangana. The institution was started in 2004-05 by VC Educational Society, Secunderabad to impart quality pharmacy education to the students from rural areas and equip them with the necessary competencies to meet the growing global demand in Pharmaceutical industry, academia, research, and in patient care areas.

The college is approved by All India Council for Technical Education (AICTE), Pharmacy Council of India, New Delhi and affiliated to Jawaharal Nehru Technological University (JNTU), Hyderabad.

The institution offers Bachelor's degree in Pharmacy (B.Pharm) followed by Master's degree in Pharmacy (M.Pharm) and Pharm. D (Doctor of Pharmacy) Programme (Six years integrated course) Post Baccalaureate (P.B).

About Department

The department of Pharmacy Practice was established in the year 2021 with an intake of 10 in Master of Pharmacy. The Pharmacy Practice department is committed to delivering quality of education for all around development of students to meet the changing requirements of pharmaceutical industry and country.

Programme Objectives

- The main aim of the NPW 2019 "Pharmacist: Your Medication Counselor" is to create awareness about the pharmacist role as a medication counselor. The campaign intends to inform pharmacy customers and patients about the importance of gathering all the relevant information before initiating a new treatment with a medicine.
- To spread awareness about appropriate use of medicines among the public and to sensitize them to ask medicine related questions to the pharmacist and promote pharmacy practice services as well. To create awareness and educate the public, other healthcare providers and the authorities, on the role of pharmacist in pharmaceutical care (counseling about the disease condition medications, increasing medication adherence, patient counseling and improving therapeutic outcomes).
- To create awareness amongst the public, other healthcare providers and the authorities, about the NPW theme in specific and about the pharmacy profession and role of the pharmacist. To raise public awareness about the medication errors and the need for regular preventive health care visits.
