### 7.1.3 Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 500 words)

- Solid waste management
- Liquid waste management
- Biomedical waste management E-waste management
- Waste recycling system
- Hazardous chemicals and radioactive waste management

From the inception, the Institute gave high priority in the development and maintenance of eco-friendly atmosphere in the campus, Motivated the students to keep their surroundings green and clean by undertaking plantation of trees. The institute and the administration have taken a number of measures to keep the campus tidy, green and environmentally sustainable. This includes energy conservation, rain water harvesting, waste control and plantations.

#### Solid waste management :

The institute does not produce any hazardous waste. Bio-degradable solid waste produced in the form of garbage through regular maintenance, stationary waste and food waste from canteen is collected and dumped in separate big pits and converted as vermi-compost and used as manure for the maintenance of garden in the campus. Non-biodegradable waste and plastics are being collected separately and disposed through local panchayat regularly.

### **Bio-medical waste management:**

Bio-hazardous waste disposal is carried out complying standard protocols and guidelines. Animal waste in the pharmacology laboratory is disposed in deep pits which are closed with dense layer of soil.

### **E-waste management :**

- The institution has undertaken many e-waste management activities to create an environment that is environmentally sustainable on campus.
- Electronic waste management: electronic fine tuning and small repairs are performed by the experienced and trained laboratory assistants, and large repairs are carried out by the Technical Assistants and recycled.
- The major e-waste such as written off instruments/equipment's, CRTs, Printers, Computers are sold out.
- UPS Batteries are recharged / repaired / exchanged by the suppliers.
- Electronic gadgets, circuits and kits have been written off on regular basis and then it is sold out to buyers/replaced also.
- All the miscellaneous e-waste such as CDs, batteries, fluorescent bulbs, PCBs and electronic items are collected and delivered for safe disposal.
- The waste compact discs and other disposable non-hazardous items are used by students for decoration.
- The awareness programs have been undertaken in the institution where the students are made aware of the E-waste management techniques.

### Hazardous chemicals and radioactive waste management

All the chemistry laboratories are well equipped with fuming cupboards in order to protect the students while handling hazardous chemicals. The chemical waste generated from the laboratories is diluted carefully and discarded through proper channels where the sewage system has been done in eco-friendly manner.

## Circular

Sub: Restricted entry of private vehicles:

It is hereby decided by the committee members of vikas college of pharmaceutical sciences to restrict the entry of private vehicles into the campus.

A separate parking area would be provided for parking the vehicles of staff as DESIGNATED PARKING AREA FOR THE STAFF.

All the vehicles of the students shall be restricted by security guard at the gate entrance, allowing only the vehicles of the staff.

The security for the vehicles in the parked area would be provided.

It also decided to encourage the students and staff to use bicycles and e-bikes to prevent the pollution and to maintain healthy environment within the campus.

The bicycles of the students will also be allowed to park in the designated area.

Differently-abled students can be dropped near the class upon the prior permission from Head of the institution.

## Circular

Sub: Ban of Plastic Use in the premises of vcps :

In accordance with the guidelines of the Government of India/University Grants Commission, vikas college of pharmaceutical sciences declares the ban on the use of plastic in its premises with immediate effect, in compliance with the following provisions:

- i) Prohibition of single-use plastics in campus grounds, canteens, hostels and during academic programs such as conferences, seminars, workshops, meetings, etc.
- ii) It is recommended that both students and staff avoid bringing non-biodegradable plastic objects to the campus.
- iii) Staff and students should ensure use of water purifying units located at specified locations in all premises and discourage the use of disposable water bottles, and promote the use of sustainable alternatives such as cotton bags, paper bags, etc. instead of plastic bottles, bags, carriers and other products in the campus.
- iv) Students should sensitize their respective households about negative consequences of plastics to make their residences 'plastic free'.
